Youth Council Example Topics

The NYS Governor's Youth Council creates opportunities for youth to participate in regional and state level activities to better inform State government on issues and challenges in the following example topic areas:

Influence of Positive Role Models & Mentors

Role models can play an important role in a youth's life as some research has stated that it can help shape behavior, especially if the youth knows the mentor on a personal level. What elements are most important to developing a successful mentoring program?

Mental Health Challenges on Youth

Mental health and the challenges that come with it are being discussed now more than ever. In response to COVID, youth have been feeling less supported and isolated over the last year. What can we do to reach youth that are struggling and how can we best meet their needs?

Substance Use and Prevention

With the increasing use of vaping products with youth and now the legalization of recreational Cannabis, how can we keep kids informed on the dangers of substance abuse and what are the best methods for prevention?

Justice, Equity, Diversity, and Inclusion

The past year has brought a lot of difficult conversations to the fore front to ensure that there is Justice, Equity, Diversity and Inclusion for all. How can we better address these issues from a youth's perspective?

Gender-based Violence Prevention & Response

We have seen too many situations where race has played a role but what about perceived gender? How can we work to establish a neutral response to violent situations?

Creating Positive Interactions between Youth & Law Enforcement

Tragedies like the murder of George Floyd have widened the gap between law enforcement and the community they serve. How can we narrow this gap to build better relationships for the future?

Youth Programming in a Virtual World

In response to the Pandemic, almost everything including youth programming, had to pivot from face to face to a virtual service method. What programming has worked? What hasn't worked? And how can we make it better both for the programs and for the youth?

Youth Voice & Engagement: Creating Opportunities

How could youth make their voices heard in their community?

Addressing Identity and Community Needs

What needs to change in order for our communities to feel safer and how can youth play a role in that?
