

ADDENDUM No.1
No. 2024-117

Lewis County Engineering and Environmental Services

Date: November 15,2024
To Whom It May Concern:

Here are responses to questions that have been asked in response to this RFP.

Do you have an estimate on how many sites will require evaluation and over what time period those evaluations will take place?

-For this particular program, we expect to fund 2-5 projects; however, we could decide to utilize the selected firm for all federally and state-funded programs going forward (CDBG, NBRC, etc). There are no particular parcels at this time.

Do you presently have a consultant who is providing these services for you – and if so, can you let me know the firm or entity?

-No, we do not.

The grant program is mentioned in the RFP. Does the County presently have funding for this work or will a grant have to be secured before the work can proceed?

-Yes, the County currently has grant funding for this and is expected to kick off the project in the first quarter of 2025.

Please reach out if you have any questions.

Brian Hanno
Lewis County Purchasing Director
