**LEWIS COUNTY  
PUBLIC SAFETY BUILDING  
GENERATOR REPLACEMENT**

Addendum No. 1

14 January 2026

This addendum will be included in and made part of the Contract Documents.

**1. Reference Contract Documents:**

**A. CLARIFICATION - Minority- and Women-Owned Business Enterprise (MWBE)**

**Participation:**

This project is anticipated to be funded in whole or in part with New York State grant funds and is therefore subject to New York State Minority- and Women-Owned Business Enterprise (MWBE) participation requirements pursuant to Article 15-A of the New York State Executive Law.

At this time, no specific MWBE participation goal has been established for this procurement. However, bidders are hereby advised that MWBE participation is strongly encouraged, and waivers of MWBE requirements will not be granted solely on the basis of open competitive bidding.

In accordance with the funding agency's requirements, all contractors must either be listed on an applicable New York State contract or be certified as a New York State MWBE at the time of bid submission.

Prime contractors are expected to make good faith efforts to solicit and utilize certified MWBE firms for subcontracting, supplies, services, and professional work where feasible. Documentation of such efforts may be required prior to contract award.

Failure to comply with applicable MWBE requirements may result in a determination of non-responsiveness.

Respectfully,

ST. LAWRENCE ENGINEERING DPC

Robert J. Campany, PE
