

PUBLIC HEARING

Lewis County Office for the Aging is inviting the public to join us at our Annual Public Hearing. This is for Lewis County residents and agencies to ask questions and comment regarding services that are delivered to the older adults of our county by our office. It's an opportunity to learn about OFA services and budgets, as well as share your thoughts, ideas, or to ask any questions you may have. All comments are important and helpful for the 2027 planning process.
